

Peer Evaluation Form for Group Work

Your name _____Aaron Goslin_____

Make sure to complete both pages of this form.

Write the name of each of your group members in a separate column (including yourself).

For each person, indicate the extent to which you agree with the statement on the left.

Use a scale of 1-4 (1=strongly disagree; 2=disagree; 3=agree; 4=strongly agree). Total the numbers in each column.

Evaluation Criteria	Group member: (Aaron)	Group member: (Liam)	Group member: (Michael)	Group member: (insert name here)
Attends group meetings regularly and arrives on time.	4	4	4	
Contributes meaningfully to group discussions.	4	4	4	
Completes group assignments on time.	4	4	4	
Prepares work in a quality manner.	4	4	3	
Demonstrates a cooperative and supportive attitude.	4	4	4	
Contributes significantly to the success of the project.	4	4	3	
TOTALS	24	24	22	

Feedback on team dynamics:

1. How effectively did your group work?

Our group worked quite effectively when needed.

2. Were the behaviors of any of your team members particularly valuable or detrimental to the team? Explain.

Yes, as one of the days I was unable to go in and work on the project but thankfully both Liam and Michael were able to carry on and work on their parts while informing me about the updates. The same thing happened vice versa when one of the lads couldn't go in. This helped us get our project done quicker and more efficiently as it was challenging trying to work around our busy schedules.

3. Outline what elements/tasks of the project you performed and what elements were performed by your team members. In doing so you must also allocate a percentage to each member (including yourself) to indicate effort made by each member (the total should add up to 100%) – for example: John 40%, Mary 30%, Julie 30%

Aaron 35% Liam 35% Michake 30%

- I found a logo and helped come up with a name for the webpage. I also created the contact page and did all of the css and javascript for that by myself.
- Liam made the home page and found the navbar for the whole project. Liam also did the css for both the home page and book page.
- Michael made the about us page and did the javascript for that page.
- All three of us equally played a part in the json file used for the book page.

4. What did you learn about working in a group from this project that you will carry into your next group experience?

I learned that there can be challenges of times and schedules clashing and that when that happens things still have to move on so the job gets done before the deadline. A key factor helping us overcome that was communication.
